SUBJECT: Prospectus Review, Summary No. 3

- Provide each Program Monitor with a copy of his prospectus;
- Set up a meeting with the Program Monitors to outline his approach to the study; and
- Establish a vehicle for regularly interacting with the Program Monitors.

f. After talking to [redacted] will decide when to meet with [redacted] to discuss the prospectus and get his thoughts on what he expects out of this effort.

25X1

3. I&W Centers:

a. [redacted] opened the meeting by reviewing what the FY 1983-1987 Program Guidance will say about I&W. [redacted] asked [redacted] to contact [redacted] PGS to try and clearly delineate between what will be proposed in the guidance and what PAO intends to do in this area. [redacted] asked [redacted] to find out who wrote the CT reaction to the program guidance. Suspicion is that [redacted] probably wrote it.

25X1

b. Everyone agreed that it will be important for the NIO(W) to understand what PAO is proposing to study. [redacted] also said that he will want [redacted] to send a letter to the Program Managers to get the study off the ground.

25X1

c. There was some discussion of whether [redacted] has enough resources to accomplish the "imagery mix studies" and the I&W study. [redacted] explained that he considers the I&W study to be a "filler" relative to the "imagery mix studies." [redacted] to indicate in the revised prospectus that there is some uncertainty over whether PAO will have enough resources to proceed on to Phase II of this effort.

25X1

d. Revised prospectus should cover the following points:

(1) Identify any intermediate products that will be provided.

(2) Identify the potential FY 1983 program/budget issues which IRO and PBO will want the paper to address.

e. Pending actions are as follows:

SUBJECT: Prospectus Review, Summary No. 3

(1) Contact [redacted] to determine what, if anything, their respective organizations will be doing in this area.

25X1

(2) Initiate Phase I activities as soon as practical.

(3) Develop a briefing which can be used to explain what the PAO study will be designed to do.

(4) Develop a revised prospectus by Monday, 5 January 1981.

f. [redacted] also attended this review.

25X1

4. All portions of this memorandum are UNCLASSIFIED.
